Summary: On June 1, 2004, Scott Blasing, counsel for the California Municipal Utilities Association (CMUA), had a telephone conversation with David Gamson, advisor to Cmmr. Brown. Blasing noted the recent filing by Southern California Edison Company (SCE), in which SCE stated that the Commission should restrict participation in upcoming workshops to only the investor-owned utilities since, according to SCE, the municipal parties have 'demonstrated their antipathy' to implementing the Commission's order. Blasing stated that SCE had grossly misrepresented CMUA's view. Blasing stated that CMUA strongly objects to SCE's request that upcoming workshop exclude CMUA and other municipal parties.

Summary: On June 1, 2004, Richard Polanco, a member of the Board of Directors of Telscape Communications, Inc. (Telscape), met with Cmmr. Wood and Cmmr. Brown in two separate meetings in San Francisco. At the meeting with Cmmr. Wood also present was Jonathan Lakritz, advisor to Cmmr. Wood, and with Cmmr. Brown – Peter Hanson, advisor to Cmmr. Brown, and Lester Wong, advisor to Pres. Peevey. Reuben Garcia, President of Telscape, and John Clark of the Goodin MacBride law firm, representing Telscape were also present. Written material (attached to the notice) was used. Telscape expressed strong objection to the increases to basic two-wire loop rates that are proposed by the draft and alternate decisions. Telscape noted that the costing process followed to develop the proposed prices involves a considerable degree of judgment in a number of key aspects. Telscape argued that it was not appropriate to 'split-the-baby' as the draft and alternate decisions propose; instead, where judgment must be exercised, the Commission can and should exercise that judgment in a manner that promotes facilities-based retail competition by ensuring CLECs have access o loops at affordable prices. Finally, Telscape urged the Commission not to order a true up of loop charges.

Summary: On June 2, 2004, Sally McMahon, Vice President of service Strategy, Policy, and Quality of

MCI, Inc. (MCI), met with Pres. Peevey, Tom Long, advisor to Cmmr. Lynch, Cmmr. Kennedy, Cmmr. Wood, and Jonathan Lakritz, advisor to Cmmr. Wood, in five separate meetings in San Francisco. At the meeting with Pres. Peevey also present was Lester Wong, advisor to Pres. Peevey, and with Cmmr. Kennedy – Tim Sullivan, advisor to Cmmr. Kennedy. Richard B. Severy, Director, State Regulatory, and Andrew Graves, Director, Marketing, for MCI, also participated. McMahon explained that the UNE price increases proposed in the Proposed Decision and Alternate Decision would have significant negative impacts on MCI's business, customers, service availability and future investment in California. McMahon maintained that if competitors are compelled to raise retail rates and cut back on service offerings, this would undermine the Commission's long-standing universal service and other major policy goals. MCI emphasized that targeting any price increases on unbundled loops would discourage investment in alternate facilities by competitive service providers and undermine efforts of competitors that desire to deploy, and migrate customers to, their own facilities.

Summary: On June 1, 2004, Cynthia Marshall, Senior Vice President for Regulatory & Constituency Relations, Pacific Bell Telephone Company dba SBC California (SBC), met with Cmmr. Kennedy in San Francisco. Also present were Timothy Sullivan, advisor to Cmmr. Kennedy, and James B. Young, General Attorney & Assistant General Counsel, David Discher, General Attorney, Fassil Fenikile, General Manager – State Regulatory, Joe Kieren, General Manager – Regulatory, Ian McNeill, General Manager – Engineering & Construction, and Scott Pearson, Supervising Director – Cost Analysis & Regulatory, for SBC. Written materials (attached to the notice) were used. SBC representatives discussed the harmful effects of current below-cost wholesale UNE-P pricing policies in California, a problem only partially remedied by the current proposed decision of ALJ Duda and the alternate of Cmmr. Wood. SBC representatives also pointed out errors in the proposed decisions regarding such things as prospective loop costs, the costs of capital, labor costs, and several other erroneous aspects. SBC pointed out the unfair market advantage – namely, substantial profit margins with minimal investments – current below-cost UNE-P prices give CLECs.

Summary: THIS IS AN AUGMENTED NOTICE OF AN EX PARTE COMMUNICATION THAT WAS FILED ON MAY 28, 2004, AND APPEARED IN THE CALENDAR OF JUNE 4, 2004. On May 25, 2004, Rod Wright, representing Duke Energy North America, LLC (Duke), met with Cmmr. Kennedy in San Francisco. Wright urged the Commission to support Cmmr. Wood's alternate in the San Diego Gas & Electric Company (SDG&E) request for proposal (RFP). Wright stated that a new RFP that allows all generators to compete on a fair basis should be conducted. Wright also stated that the requirements for the bid in the RFP changed in the middle of the process and that this change had disadvantaged Duke.

Bloom and Cottle discussed the need for long-term contracts for existing and new QFs, explaining that companies are making decisions now about whether to make investments in their facilities. Bloom and Cottle noted that companies are interested in investing in new cogeneration facilities, and are paying close attention to California's QF policies in deciding whether to make those investments.

Also present was Steven F. Greenwald, outside counsel for Calpine. The Calpine representatives explained the significant reliability and RMR cost savings and other economic benefits that the PPA would provide to SDG&E and its ratepayers. The Calpine representatives further explained that approval of Cmmr. Wood's alternate proposed decision rejecting the PPA would needlessly deny SDG&E and its ratepayers such reliability and economic benefits and ultimately increase costs to ratepayers.

6/8/04 A02-11-044 San Gabriel Valley Water Company, for authority to increase rates charged for water service in its Fontana Water Company Division to increase revenues by \$11,573,200 or 39.1% in 2003, \$3,078,400 or 7.3% in 2004, \$3,078,400 or 6.8% in 2005, and \$3,079,900 or 6.4% in 2006.

Summary: On June 3, 2004, Travis Foss, counsel for the Office of Ratepayer Advocates (ORA), met with Jonathan Lakritz, advisor to Cmmr. Wood, in San Francisco. Also present were Ken MacVey for the City of Fontana (City), and Jim Allen for the Fontana Unified School District (District). ORA, the City, and the District voiced their concerns about the large rate increase authorized by the alternate decision (AD). ORA presented an alternate way to calculate the rate base cap in the AD, recommending that the plant additions funded by the County of San Bernardino not be used in calculating a three-year average for plant additions upon which to base the rate base cap. ORA also recommended using a five-year average in plant additions. The City and the District pointed out that the three-year average used by the AD reflects the highest three-year average in company history, during which the company replaced all of the polluted water supply. The City also recommended a change to AD that would require future cooperation between the company and the City and would require the company to file a water management plan in future general rate cases.
